SUMMARY

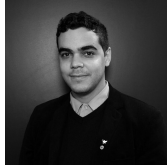

Angelo began using Linux at a very early age; Learning how to program and to develop UIs for data manipulation in Qt while still very young; Angelo then began autonomously learning and programming for web at the age of 16 (around the time he has joined a C-sound and Pure Data study group in the university); He had also the opportunity to study Telecommunications Systems Engineering for 2 years at the Polytechnic University of Catalonia in Barcelona, with notable skills in Calculus, Object Oriented Programming, Networks, and Interface Engineering;

Currently, Angelo Reale is a Full Stack Developer at Jüssi, an Ogilvy/WPP Group company, the largest advertising group in the world, with yields that surpass 16 billion dollars a year. Jüssi has leading clients such as Über, Itaú, Honda and Whirlpool.

Previously, Angelo Reale was a Full Stack Developer at teeWe Technology Solutions Ltda., a local authority in IT systems for the energy and oil industries, with leading clients such as Odebrecht, Petrobras and Braskem.

In all these years, Angelo Reale has already worked with international organizations such as the United Nations, multinationals like Material Connexion and Samsung, media agencies, political parties, NGO's such as United Religions Initiative and My Mind My Funk in Kenya, 5-star hotels such as Fiesta Bahia, several cultural entities worldwide, as well as managers of all kinds and business areas.

Resilient, quick-witted, detail-oriented, thoughtful and with abundant charisma, Angelo Reale possesses a notable capability of managing projects as well as relationships with colleagues, partners, suppliers and clients. Beyond that, Angelo is constantly seeking for new opportunities to cooperate with other talented people in order to imprint a positive impact to mankind's heritage.

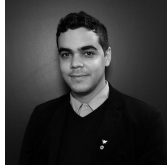

I'M ANGELO REALE.
